What do I want for my future? (Your vision and life goals)

In Year 11 what subjects and learning opportunities might support my pathway?

Would these choices lead me to some Year 12 subjects I might need?

What interests and personal strengths do I have that might support my goals?

Who are the people who might help me answer these questions?

What are the barriers that might prevent me from achieving my goals?

Questions I might like to ask the Academy Enrolment Counsellor:

What education choices can I make in order to achieve these goals?
